

Insulation resistance	DC500V, 100MΩ Min
Withstand Voltage	AC500V 1 minute
Body Material	Brass
Main insulator	P.B.T.
Terminal type	L.E.D.wire (Square length: 0.5mm (0.020 inch))
Panel thickness	3.5mm(0.138 inch) (Max)
How to mount	With nut
Body color	CH(Chrome)
Diode color	R (Red),
Note	1.Resistor not installed. Assorted resistor must install series upon voltage. 2.Must keep diode polarization. 3.Must not bend LED wire 2mm (0.080 inch)Min from it's bottom. 4.Must not apply solder before bend forming.5.We recommend that you download the product documents "mm-inch conversion chart " before you purchase this product.
